Subject: RE: EPA Certified Records

I wonder if Earl Ingram might be able to provide some guidance. We've helped OGC prepare administrative records, and Earl's group provide records for FOIA – I'm not sure what the below is.

I don't believe I am the right person for this. Who should we send this to?

Ms. Reaves,

I am trying to obtain certified copies of documents on the glyphosate registration docket. According to Mr. Schwarz of the Office of the General Counsel, the record custodians for such documents must prepare the documents for certification. My understanding is that you are the primary record custodian for the documents on the glyphosate docket. Could you please confirm that is correct and if so could you please prepare the documents for certification? If this email should go elsewhere, would you please let me know who to send it too. Apologies for the email near the holidays but I am on a tight timeframe.

Best Regards,
Dalton

EXTERNAL

Good Morning, Mr. Mott. I am on Ms. Blake's staff and can assist. In order to request certified copies of documents in the glyphosate docket, you will need to contact the person listed at the bottom of the document to prepare the document for certification by the Office of General Counsel. You can find the email address of a particular custodian by searching their name in our directory at <https://cfpub.epa.gov/locator/index.cfm>. Feel free to cc me on any such email to assist once the document custodians are identified.

Best,
Matt Schwarz

Ms. Blake,

I am trying to obtain certified copies of the documents on EPA's glyphosate docket. I saw online that you previously were in charge of certifying such records and from speaking with your office they suggested I email you and including your deputy Ms. Youngblood. Would you please let me know the process to obtain certified copies? I apologies for the email so close to the holidays but we are on a short timeframe.

Best Regards,
Dalton
